

bowdark

Bowdark is a small, women owned IT consulting company that offers a variety of IT consulting services for federal, state and local government agencies. From developing digital strategies to improving digital experience and providing mobile access to better serve citizens. Our service catalog aligns very well with government IT initiatives. We have a proven track record taking the frustration out of technology. We deliver streamlined, technology-driven solutions that help our customers and their customers run more efficiently.

- Cloud Migrations
- IoT

Azure

SYSTEM INTEGRATION

- EDI & B2B Integration
- A2A Integration
- Cloud & Hybrid Integration

BUSINESS INTELLIGENCE

- Data Modeling
- ETL/Data Processing
- Data Warehouse Design
- Reports & Dashboards

BUSINESS DEVELOPMENT

- ERP & CRM Solutions
- Custom Business Systems
- SaaS Extensions

PAST PROJECT EXAMPLES

Northrop Grumman

Northrop Grumman, one of the world's largest aerospace and defense contractors. NG engaged Bowdark to perform a pair of projects to streamline processing within its supply chain organization. The work performed included:

- Implementing a secure supplier portal that enabled Northrop Grumman's purchasing department to negotiate POs and COs electronically with suppliers.
- Process Optimization - transforming a manual, paper-based supplier registration process into a complete, end-to-end digital process using digital forms, workflow, and integration with the SAP Business Suite.

Newport News Shipbuilding

NNS is the sole designer, builder, and refueler of aircraft carriers for the U.S. Navy. NNS engaged Bowdark to help them develop an incident management system in SAP S/4 HANA to support their EH&S department in the management of incidents, claims, and various regulatory reporting requirements. Here, we used the latest innovations with SAP HANA and Fiori technology to produce an intuitive and responsive UX to enable incident managers to quickly access and process through incidents.
