bowdark

Bowdark is a small, women-owned IT consulting firm that specializes in providing a wide range of services tailored to federal, state, and local government agencies. Our expertise spans developing digital strategies, enhancing customer experiences, and enabling mobile access to better serve citizens. Aligned with key government IT initiatives, we're known for delivering pragmatic solutions that simplify technology and eliminate frustration. By implementing modern, streamlined approaches, we empower our clients—and the communities they serve—to operate more efficiently.

- Cloud & Hybrid Integration

BUSINESS INTELLIGENCE
- Data Modeling
- ETL/Data Engineering
- Data Warehouse Design
- Power BI Reports & Dashboards

BUSINESS SOLUTIONS
- ERP & CRM Solutions
- Custom Business Systems
- SaaS Extensions

PAST PROJECT EXAMPLES

Northrop Grumman
Northrop Grumman, one of the world's largest aerospace and defense contractors, engaged Bowdark to perform a pair of projects to streamline processing within its supply chain organization. The work performed included:

Implementing a secure supplier portal that enabled Northrop Grumman's purchasing department to negotiate POs and COs electronically with suppliers.
Process Optimization - transforming a manual, paper-based supplier registration process into a complete, end-to-end digital process using digital forms, workflow, and integration with the SAP Business Suite.

Newport News Shipbuilding
NNS is the sole designer, builder, and refueler of aircraft carriers for the U.S. Navy. NNS engaged Bowdark to help them develop an incident management system in SAP S/4 HANA to support their EH&S department in the management of incidents, claims, and various regulatory reporting requirements. Here, we used the latest innovations with SAP HANA and Fiori technology to produce an intuitive and responsive UX to enable incident managers to quickly access and process through incidents.

CLIENT PORTFOLIO
